Hi Brad,

Excellent news and timing! I just received confirmation from the City that they can narrow the three pedestrian accesses for us down to 2M.

This means that the JB's can be deployed elsewhere in Confed park, specifically as follows:

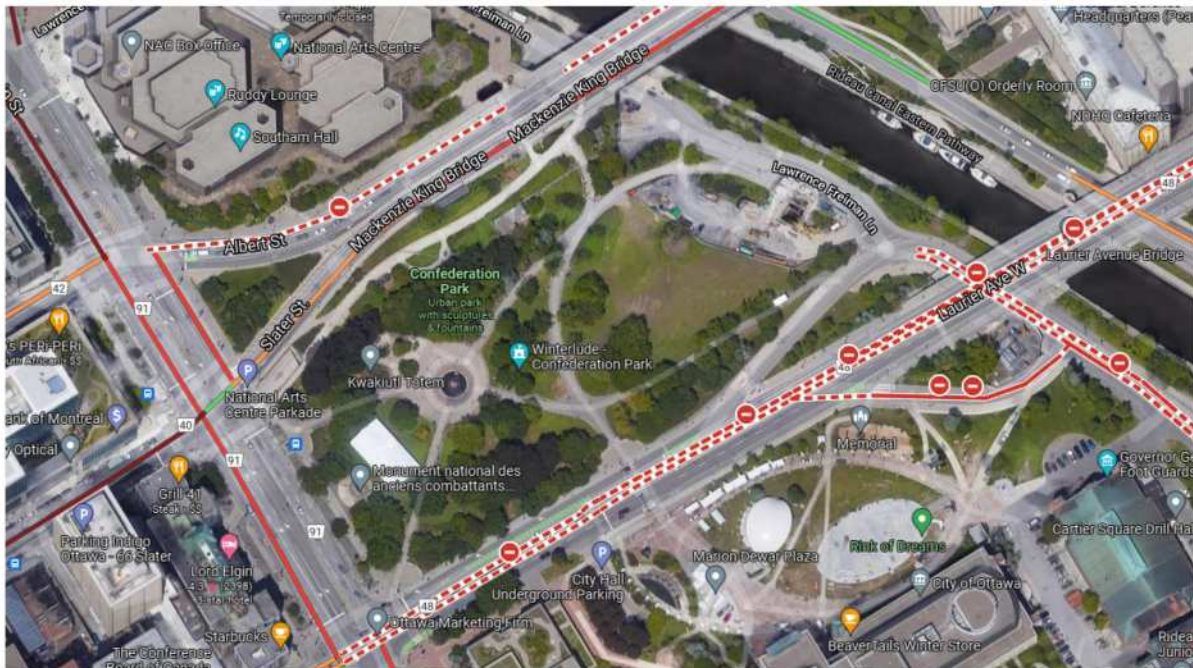

- * Barriers to be placed along the west edge of the cleared area along Freiman Lane
- * I don't expect there to be enough to make a full semi-circle, however the three barriers, strategically placed, should likely go a long way to dissuading folks from accessing the area in the vehicles.

I'll leave the final orientation to the judgement of staff tonight – look for tire tracks and place a barrier!!

Thanks again for your help on this one – we really appreciate it!

Cheers

Ian

Ian,

I can confirm that PSPC has sufficient barriers for Confederation Park. The PSPC truck can accommodate a maximum of 5 JB's. Two will be deployed at the NWM and the remaining at Confed Park.

Can you please provide a pic to confirm locations at Confed Park and PSPC will coordinate with OPS via the NCRCC.

ETA is planned at midnight (avoidance of traffic congestion and crowds) pending confirmation of NCC location and confirmation with the NCRCC.
